

Course Name: ASTM F24 Current Standards

Hours to complete: 1.00

CEUs: 0.10

Description:

The standards and guides change often. Are you up to date on your understanding of which standard is applicable today? This general 2020 AIMS Safety Seminar series video course will review the current standards presently in force. Do you know all 23 titles and what they cover? learn the new titles and discover what is covered and where in latest update of the ASTM standard.

Audience:

This program is designed for ride owners/operators, maintenance, inspectors and other amusement personnel who require continuing education and training for maintaining their certification to work in their respective positions per AHJ regulations and/ or company policies. This program is also ideal for individuals wishing to remain current on latest industry trends, standards and best practices applicable to their day to day job duties as it relates to their role.

Specific target audience includes:

Ride device, water slide, water attractions, trampoline and adventure course inspectors, maintenance personnel, owners/operators, management, and manufacturers.

Prerequisites:

Participants enrolling in this course:

- Must have access to a mobile device or computer with connectivity to the internet for viewing the content within the learning management system.
- Must log in with their unique email and password credentials to access their course materials.
- Must have access to a stable, high speed Internet connection for optimal viewing of the content to minimize potential for buffering of multimedia in learning programs.
- Ideally should join **ASTM F24** at www.astm.org to become a member and own a copy of the standard.

Evaluation:

Successful course completion includes:

- Review of the module content in its entirety
- Successful completion of the module quiz
- Completion of the module course evaluation survey.

Upon successful completion of all modules, participants must complete the course survey and then will have access to download their credentials and any associated CEUs.

Outcomes:

Participants in this course will:

1. Learn what the ASTM F24 standards are and how they relate to one another
2. Discover what the supporting and core standards are under ASTM F24
3. Understand how ASTM F24 subcommittees work and which standards apply to each.
4. Review new and developing ASTM F24 standards.

Expectations:

Students will watch a learning module of content from the AIMS 2020 Safety Seminar video series and complete the assessment quiz at the end of the module.
