

Course Name: Intro and Updates To ASTM Standard

Hours to complete: 1.00

CEUs: 0.10

Description:

In this course learners will receive an update of the ASTM International F-24 Committee Standards which are the nationally recognized standards that pertain to the amusement industry. Learn about how specialty standards relate to the core and supporting standards and define the specific subcommittees and which standards are assigned to each. Finally review recent changes to existing standards, newly passed standards and understand the development process of standards and what new standards are being developed at this time by the committee.

Audience:

This program is designed for ride owners/operators, maintenance, inspectors and other amusement personnel who require continuing education and training for maintaining their certification to work in their respective positions per AHJ regulations and/ or company policies. This program is also ideal for individuals wishing to remain current on latest industry trends, standards and best practices applicable to their day to day job duties as it relates to their role.

Specific target audience includes:

Ride device, water slide, water attractions, trampoline and adventure course inspectors, maintenance personnel, owner/ operators, management.

Amusement manufacturers for ride devices, water slides, water attractions, trampoline and adventure courses

Prerequisites:

Participants enrolling in this course:

- Must have access to a mobile device or computer with connectivity to the internet for viewing the content within the learning management system.
- Must log in with their unique email and password credentials to access their course materials.
- Must have access to a stable, high speed Internet connection for optimal viewing of the content to minimize potential for buffering of multimedia in learning programs.
- Ideally should join **ASTM F24** at www.astm.org to become a member and own a copy of the standard.

Evaluation:

Successful course completion includes:

- Review of the module content in its entirety
- Successful completion of the module quiz
- Completion of the module course evaluation survey.

Upon successful completion of all modules, participants must complete the course survey and then will have access to download their credentials and any associated CEUs.

Outcomes:

Participants in this course will

1. Understand what the F24 Standards are and they relate to each other
2. Learn how specialty standards relate to the core and supporting standards
3. Define the specific subcommittees and which standards are assigned to each
4. Review the recent changes to the standards within the last year
5. Understand the standards development process and any new or developing standards

Expectations:

Students will watch a learning module of content from the AIMS 2020 Safety Seminar video series and complete the assessment quiz at the end of the module.
