

Course Name: Project Management**Hours to complete:** 2.00**CEUs:** 0.20**Description:**

In this course learners will review basic techniques of planning, executing and reviewing the results of a typical project. They will discover the project manager's roles and responsibilities and will find this information useful in their own roles as members of a maintenance or operation management team. The project can vary in size from a single installation or event to a more involved combination of installations. Learners will understand how to identify the critical path of a project schedule and discover the importance of knowing and managing the project's critical path. Basic principles will be discussed as well as the process by which you can manage unpredictable tasks.

Audience:

This program is designed for ride owners/operators, maintenance, inspectors and other amusement personnel who require continuing education and training for maintaining their certification to work in their respective positions per AHJ regulations and/ or company policies. This program is also ideal for individuals wishing to remain current on latest industry trends, standards and best practices applicable to their day to day job duties as it relates to their role.

Specific target audience includes:

Ride device, water slide, water attractions, trampoline and adventure course inspectors, maintenance personnel, owner/ operators, management.

Amusement manufacturers for ride devices, water slides, water attractions, trampoline and adventure courses

Prerequisites:

Participants enrolling in this course:

- Must have access to a mobile device or computer with connectivity to the internet for viewing the content within the learning management system.
- Must log in with their unique email and password credentials to access their course materials.
- Must have access to a stable, high speed Internet connection for optimal viewing of the content to minimize potential for buffering of multimedia in learning programs.

Evaluation:

Successful course completion includes:

- Review of the module content in its entirety
- Successful completion of the module quiz
- Completion of the module course evaluation survey.

Upon successful completion of all modules, participants must complete the course survey and then will have access to download their credentials and any associated CEUs.

Outcomes:

Participants in this course will:

1. Review the basic principles of project management.
2. Discover the project manager's role/responsibilities.
3. Identify the critical path of a project schedule.
4. Discuss the importance of knowing and managing the project schedule's critical path.

Expectations:

Students will watch a learning module of content from the AIMS 2020 Safety Seminar video series and complete the assessment quiz at the end of the module.
