

Course Name: Making Rides Accessible

Hours to complete: 1.00

CEUs: 0.10

Description:

In this 2020 AIMS Safety Seminar video course, the presenter reviews ADA accessibility as it relates to the amusement industry. Learners will define an amusement ride and ADA within the scope of ADA accessibility. Learners recall who is covered under ADA and identify rider requirements. Learners will discuss the difference between access and safety. Lastly, they review basic requirements for making a ride accessible. Hear examples and suggestions for guest processes when making a ride accessible in different amusement ride applications as industry peers share concerns and best practices from their experiences in the session.

Audience:

This program is designed for ride owners/operators, maintenance, inspectors and other amusement personnel who require continuing education and training for maintaining their certification to work in their respective positions per AHJ regulations and/ or company policies. This program is also ideal for individuals wishing to remain current on latest industry trends, standards and best practices applicable to their day to day job duties as it relates to their role.

Specific target audience includes:

Park owner/ operators and management responsible for making rides accessible.

Prerequisites:

Participants enrolling in this course:

- Must have access to a mobile device or computer with connectivity to the internet for viewing the content within the learning management system.
- Must log in with their unique email and password credentials to access their course materials.
- Must have access to a stable, high speed Internet connection for optimal viewing of the content to minimize potential for buffering of multimedia in learning programs.

Evaluation:

Successful course completion includes:

- Review of the module content in its entirety
- Successful completion of the module quiz
- Completion of the module course evaluation survey.

Upon successful completion of all modules, participants must complete the course survey and then will have access to download their credentials and any associated CEUs.

Outcomes:

Participants in this course will

Define ADA and the scope of the ADA as it relates to making rides accessible.
List who is covered under ADA for rides and attractions
Identify ADA rider requirements and define an amusement ride according to ADA.
Discuss the difference between access vs safety when reviewing ADA.
Discover tips on what may need consideration when making new rides accessible.

Expectations:

Students will watch a learning module of content from the AIMS 2020 Safety Seminar video series and complete the assessment quiz at the end of the module.
