

Course Name: Steel Coaster and Train Inspection**Hours to complete:** 1.00**CEUs:** 0.10**Description:**

This video course from the AIMS 2020 Safety Seminar Series is ideal for owner operators, inspectors and maintenance staff who have steel coasters to inspect. In this program, identify methods for how to inspect a steel coaster and review the reasons to inspect a steel coaster. Receive an overview of standards, documents and resources that are available for steel coaster inspection. Gain tips on how to prepare your inspection process after reviewing examples presented in the course.

Audience:

This program is designed for ride owners/operators, maintenance, inspectors and other amusement personnel who require continuing education and training for maintaining their certification to work in their respective positions per AHJ regulations and/ or company policies. This program is also ideal for individuals wishing to remain current on latest industry trends, standards and best practices applicable to their day to day job duties as it relates to their role.

Specific target audience includes:

Inspectors, maintenance personnel, owner/ operators, management and manufacturers who work on steel coasters.

Prerequisites:

Participants enrolling in this course:

- Must have access to a mobile device or computer with connectivity to the internet for viewing the content within the learning management system.
- Must log in with their unique email and password credentials to access their course materials.
- Must have access to a stable, high speed Internet connection for optimal viewing of the content to minimize potential for buffering of multimedia in learning programs.

Evaluation:

Successful course completion includes:

- Review of the module content in its entirety
- Successful completion of the module quiz
- Completion of the module course evaluation survey.

Upon successful completion of all modules, participants must complete the course survey and then will have access to download their credentials and any associated CEUs.

Outcomes:

Participants in this course will

- Identify methods for how to inspect a steel coaster.
- Review or recall the reasons to inspect a steel coaster.
- Recall the standards, documents, and resources available for inspection.
- Determine an inspection process that works for your facility based on examples shared in the program.

Expectations:

Students will watch a learning module of content from the AIMS 2020 Safety Seminar video series and complete the assessment quiz at the end of the module.
