

Course Name: Conveyor Belts

Hours to complete: 1.00

CEUs: 0.10

Description:

This course is ideal for individuals who have conveyor belts in their facilities and for individuals responsible for inspecting or maintaining a conveyor belt. In this video course from the AIMS 2020 Safety Seminar Series, learn the different types of conveyors and their uses applicable to the amusement industry. Review the ANSI and ASTM standards that apply to conveyor belts. Identify the components of a conveyor system and learn the inspection points for a system.

Audience:

This program is designed for ride owners/operators, maintenance, inspectors and other amusement personnel who require continuing education and training for maintaining their certification to work in their respective positions per AHJ regulations and/ or company policies. This program is also ideal for individuals wishing to remain current on latest industry trends, standards and best practices applicable to their day to day job duties as it relates to their role.

Specific target audience includes:

Ride device, water slide, water attractions, trampoline and adventure course inspectors, maintenance personnel, owner/operators, and management.

Prerequisites:

Participants enrolling in this course:

- Must have access to a mobile device or computer with connectivity to the internet for viewing the content within the learning management system.
- Must log in with their unique email and password credentials to access their course materials.
- Must have access to a stable, high speed Internet connection for optimal viewing of the content to minimize potential for buffering of multimedia in learning programs.
- Ideal for participants that have a conveyor belt in their work facility.

Evaluation:

Successful course completion includes:

- Review of the module content in its entirety
- Successful completion of the module quiz
- Completion of the module course evaluation survey.

Upon successful completion of all modules, participants must complete the course survey and then will have access to download their credentials and any associated CEUs.

Outcomes:

Participants in this course will

Recognize the different types of conveyors in the amusement industry.

Review the ANSI and ASTM standards that apply to conveyor belts.
Discuss the reasons why conveyors are used in the industry.
Identify the components of a conveyor system.
Discover the inspection points for a conveyor system.

Expectations:

Students will watch a learning module of content from the AIMS 2020 Safety Seminar video series and complete the assessment quiz at the end of the module.
