

**Course Name: ASTM F770 Operations**

**Hours to complete:** 1.00

**CEUs:** 0.10

**Description:**

This course includes an in-depth discussion of each requirement of the ASTM F770 Standard Practice for Operation, Maintenance and Inspection of Amusement Rides and Devices. The course will cover the interpretation of the standards and the methods of compliance.

**Audience:**

This program is designed for ride owners/operators, maintenance, inspectors and other amusement personnel who require continuing education and training for maintaining their certification to work in their respective positions per AHJ regulations and/ or company policies. This program is also ideal for individuals wishing to remain current on latest industry trends, standards and best practices applicable to their day to day job duties as it relates to their role.

**Specific target audience includes:**

Ride device, water slide, water attractions, trampoline and adventure course owner/ operators

**Prerequisites:**

Participants enrolling in this course:

- Must have access to a mobile device or computer with connectivity to the internet for viewing the content within the learning management system.
- Must log in with their unique email and password credentials to access their course materials.
- Must have access to a stable, high speed Internet connection for optimal viewing of the content to minimize potential for buffering of multimedia in learning programs.
- Ideally should join **ASTM F24** at [www.astm.org](http://www.astm.org) to become a member and own a copy of the standard.

**Evaluation:**

Successful course completion includes:

- Review of the module content in its entirety
- Successful completion of the module quiz
- Completion of the module course evaluation survey.

Upon successful completion of all modules, participants must complete the course survey and then will have access to download their credentials and any associated CEUs

**Outcomes:**

Participants in this course will:

1. Review what ASTM is and how it applies to the amusement industry
2. Understand the role of Committee F24, as well as the applicable subcommittees and standards.
3. Discover what the F770 standard covers and review the section applicable to amusement ride operation.

**Expectations:**

Students will watch a learning module of content from the AIMS 2020 Safety Seminar video series and complete the assessment quiz at the end of the module.
