

Course Name: Blocking

Hours to complete: 1.00

CEUs: 0.10

Description:

Blocking is the first step in any physical inspection process that must be verified to ensure a foundation can manage its task. In this video course from the 2020 AIMS Safety Seminar series session, learners define blocking, discuss how blocking is critical to the foundation of ride set up, and identify inspection guides to follow when checking the blocking of a ride. Learners will observe blocking set ups for various rides and learn lessons from those past examples that they may be able to apply in their facilities after the course.

Audience:

This program is designed for ride owners/operators, maintenance, inspectors and other amusement personnel who require continuing education and training for maintaining their certification to work in their respective positions per AHJ regulations and/ or company policies. This program is also ideal for individuals wishing to remain current on latest industry trends, standards and best practices applicable to their day to day job duties as it relates to their role.

Specific target audience includes:

Ride device, water slide, water attractions, trampoline and adventure course inspectors, maintenance personnel, owner/operators and management

Prerequisites:

Participants enrolling in this course:

- Must have access to a mobile device or computer with connectivity to the internet for viewing the content within the learning management system.
- Must log in with their unique email and password credentials to access their course materials.
- Must have access to a stable, high speed Internet connection for optimal viewing of the content to minimize potential for buffering of multimedia in learning programs.

Evaluation:

Successful course completion includes:

- Review of the module content in its entirety
- Successful completion of the module quiz
- Completion of the module course evaluation survey.

Upon successful completion of all modules, participants must complete the course survey and then will have access

Outcomes:

Participants in this course will

Define blocking.

Discuss blocking and how it is critical to the foundation of a ride set up.

Identify inspection guides to follow for checking the blocking of a ride.
Review examples of blocking at various rides for past lessons.

Expectations:

Students will watch a learning module of content from the AIMS 2020 Safety Seminar video series and complete the assessment quiz at the end of the module.
