

Course Name: Bumper Boats and Go Kart Maintenance and Operations

Hours to complete: 0.75

CEUs: 0.10

Description:

This course is designed as a starting point for developing your own bumper boat and or go-kart program for operating and maintaining equipment for the safe recreational use of your patrons. The course includes detailed descriptions of daily maintenance and safety inspections of equipment, ponds/pools and tracks checklists. It discusses the need for thorough knowledge and familiarization of equipment maintenance, operations, and safety manuals. As well as owner/operator ASTM standard compliance

Audience:

This program is designed for ride owners/operators, maintenance, inspectors and other amusement personnel who require continuing education and training for maintaining their certification to work in their respective positions per AHJ regulations and/ or company policies. This program is also ideal for individuals wishing to remain current on latest industry trends, standards and best practices applicable to their day-to-day job duties as it relates to their role.

Specific target audience includes:

Ride device, water slide, water attraction, trampoline and adventure course maintenance personnel, owner/ operators, management and manufacturers looking to improve efficiencies in their performance.

Prerequisites:

Participants enrolling in this course:

- Must have access to a mobile device or computer with connectivity to the internet for viewing the content within the learning management system.
- Must log in with their unique email and password credentials to access their course materials.
- Must have access to a stable high speed internet connection for optimal viewing of the content to minimize potential for buffering of multimedia in learning programs.

Evaluation:

Successful course completion includes:

- Review of the module content in its entirety
- Successful completion of the module quiz
- Completion of the module course evaluation survey.

Upon successful completion of all modules, participants must complete the course survey and then will have access to download their credentials and any associated CEUs.

Outcomes:

Participants in this course will

1. Review all aspects of bumper boat and go kart maintenance.

2. Review safety operations of boats and karts on tracks and pools

3. Discuss daily checklist for maintenance and safety of all equipment including oars, karts, pools/ponds and tracks.

4. Identify the ASTM standard applicable boat and kart operations

Expectations:

Students will watch a learning module of content from the AIMS 2020 Safety Seminar video series and complete the assessment quiz at the end of the module.
