

**Course Name: Life Safety Code**

**Hours to complete:** 0.75

**CEUs:** 0.10

**Description:**

The publication *Life Safety Code*, known as NFPA 101, is a consensus [standard](#) widely adopted in the United States. It is administered, trademarked, copyrighted, and published by the [National Fire Protection Association](#) and, like many NFPA documents, is systematically revised on a three-year cycle. The bulk of the standard addresses "those construction, protection, and occupancy features necessary to minimize danger to life from the effects of fire, including smoke, heat, and toxic gases created during a fire." This course covers the history of the Life Safety Code, as well as how it affects the safe operation of Special Amusement Buildings in the amusement industry.

**Audience:**

This program is designed for ride owners/operators, maintenance, inspectors and other amusement personnel who require continuing education and training for maintaining their certification to work in their respective positions per AHJ regulations and/ or company policies. This program is also ideal for individuals wishing to remain current on latest industry trends, standards and best practices applicable to their day-to-day job duties as it relates to their role.

**Specific target audience includes:**

Ride device, water slide, water attraction, trampoline and adventure course maintenance personnel, owner/ operators, management and manufacturers looking to improve efficiencies in their performance.

**Prerequisites:**

Participants enrolling in this course:

- Must have access to a mobile device or computer with connectivity to the internet for viewing the content within the learning management system.
- Must log in with their unique email and password credentials to access their course materials.
- Must have access to a stable high speed internet connection for optimal viewing of the content to minimize potential for buffering of multimedia in learning programs.

**Evaluation:**

Successful course completion includes:

- Review of the module content in its entirety
- Successful completion of the module quiz
- Completion of the module course evaluation survey.

Upon successful completion of all modules, participants must complete the course survey and then will have access to download their credentials and any associated CEUs.

**Outcomes:**

Participants in this course will

1. Describe why the Life Safety Code was established and its purpose.
2. Identify why the standard includes requirements for Special Amusement Buildings

3. Describe the term “means of egress”
4. Explain the term ”special amusement buildings” and identify some of those buildings
5. Discuss the requirements for alarms, exits, and emergency plans for Special Amusement Buildings

**Expectations:**

Students will watch a learning module of content from the AIMS 2020 Safety Seminar video series and complete the assessment quiz at the end of the module.
